

# Fluid End Repair & Reconditioning

Damaged Fluid End

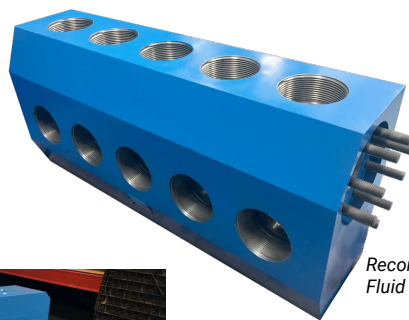

With self-developed processes and equipment, Twin Pines Manufacturing specializes in top-notch fluid end repair and reconditioning, providing exceptional value to its customers, with a low cost alternative to replacement.

Our reconditioning process is unmatched and proven, with Fluid Ends averaging 1000 plus hours after repairs. In some cases, lasting a total life span of 4000 to 5000 hours. No other repair center or OEM is reaching this level of success.

Once repaired, TPM can also pre-load your fluid ends with new parts, ready for placement back into operation.

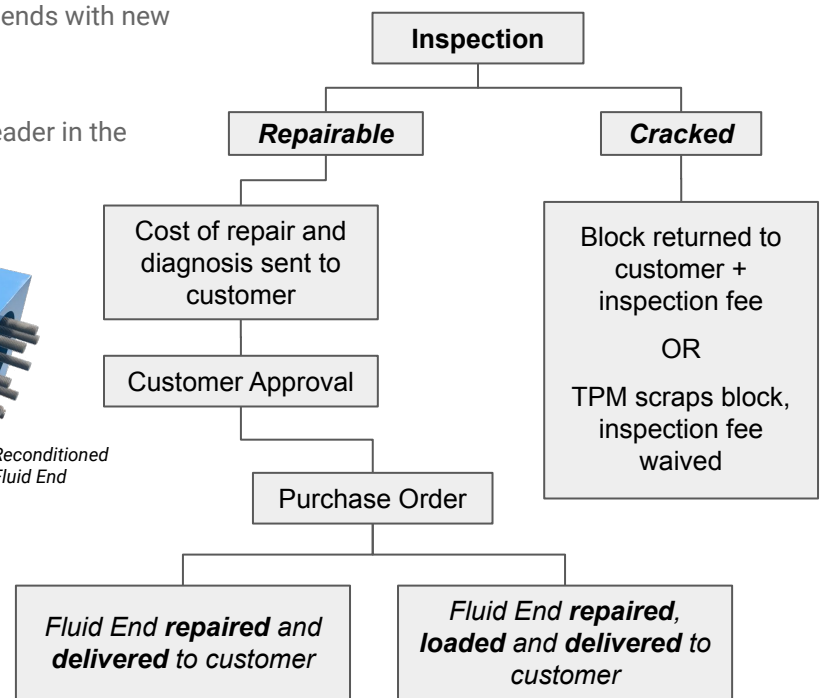

Twin Pines Manufacturing is clearly the repair leader in the industry!
